TECHNOLOGY PARTNER

From MVP to Pilot, Production & Scale

Technology Roadmap & Strategic Delivery Partnership

Your business. Our technology. Anodiam has your back.

Secure delivery. Practical partnership. Long-term commitment.

1 **MVP**
VALIDATED & READY

2 **PILOT**
SECURE & RELIABLE

3 **PRODUCTION**
REAL-WORLD IMPACT

4 **SCALE**
GREATER REACH

We support CheckUpp through pilot, production and growth.

Discussion with Dr Sheila
ANODIAM | OCTOBER 2026

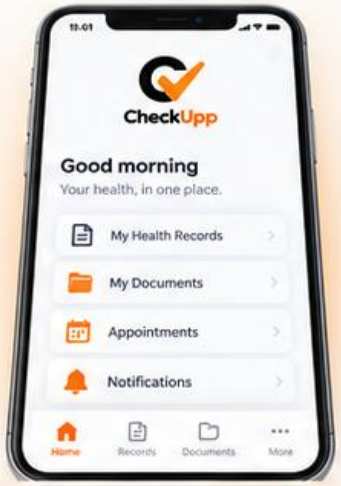

CheckUpp

Anodiam
TECHNOLOGY PARTNER

From MVP to a Secure, Scalable Product Platform

The next step is to make **CheckUpp safer**, more reliable and ready for pilot, production and growth.

1 CheckUpp App

What users see and use.

2 Secure Cloud Platform

A protected and reliable environment for running CheckUpp.

3 Core Product Services

- User accounts
- Health records
- Document wallet
- Notifications
- Integrations
- Reporting & insights

4 Safe Data Storage

Secure storage for health data, documents and system records.

5 Monitoring & Support

- Backups
- Issue detection
- Performance monitoring
- Ongoing support
- Continuous improvement

Why this upgrade matters

Better Security
Stronger protection for user and health data

More Reliability
Fewer failures and smoother operation

Ready for Growth
Able to support more users over time

Higher-Quality Releases
Safer, more controlled updates

Better Visibility
Easier monitoring, support and improvement

Stronger Production Readiness
A solid foundation for pilot and launch

We are not just adding more features.
We are building the foundation that lets CheckUpp operate safely and confidently in the real world.

Build What CheckUpp Needs — Then Get It to Market Fast

CheckUpp sets the product direction. **Anodiam** helps discover, define, build and improve the right capabilities with customers at the centre.

Discover

- Listen to users, clinicians and stakeholders
- Identify the highest-value problems
- Validate what matters most

Define

- Shape ideas into clear user journeys and features
- Prioritise by value and effort
- Prototype and refine before full development

Deliver

- Build in small, usable increments
- Demo frequently and gather feedback quickly
- Improve continuously based on evidence

Illustrative capability priorities

- Strengthen Core MVP
- Document Wallet
- Connected Devices
- Health Insights
- Reminders & Engagement
- Pilot Operations
- Future Integrations
- Future Intelligence

Your product. Your priorities. Your decisions.

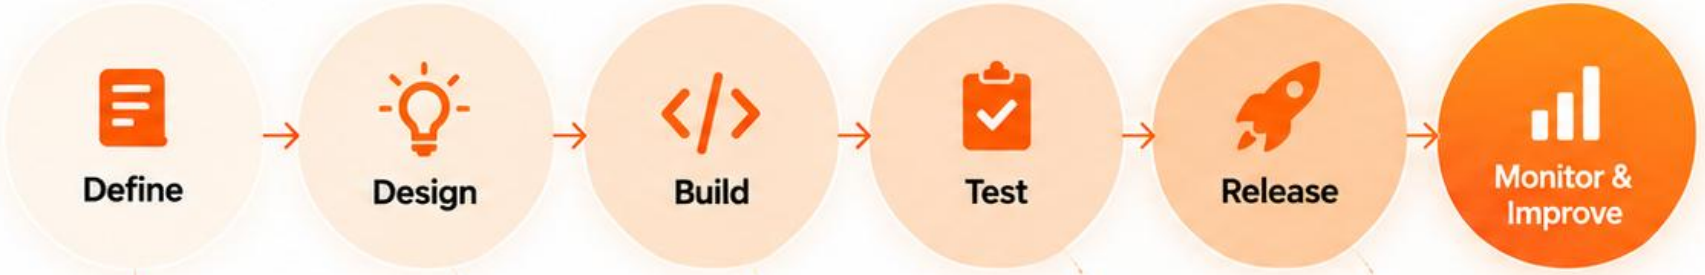

Anodiam brings the product, design and engineering capability to turn those decisions into a working product — quickly, safely and iteratively.

TECHNOLOGY PARTNER

Quality Is Built In — From Start to Finish

A disciplined delivery approach that embeds quality into every stage of the CheckUpp journey.

Clear requirements
User stories, acceptance criteria, prioritiees

Architecture & security review
Fit-for-purpose design and risk checks

Peer review & QA
Code review, functional testing, regression testing

User validation
Demonstrations, feedback, usability review

Controlled release
Versioning, rollback, monitoring

Why this matters for CheckUpp

Lower delivery risk
Issues are identified earlier and resolved before they scale.

Higher product reliability
A more stable and dependable experience for users.

Faster feedback and course correction
Real user insights drive continuous improvement.

Safer releases
Changes are controlled, with versioning and rollback.

Stronger production readiness
A reliable, scalable platform ready for real-world use.

Quality is not a final checkpoint. It is built into every step of delivery.

TECHNOLOGY PARTNER

Technology Partner — Without Taking Over the Client's Business

A focused partnership model that keeps CheckUpp in control while Anodiam delivers the technology capability needed for growth.

CheckUpp leads

- Product vision & roadmap
- Clinical direction & governance
- Business strategy & funding
- Go-to-market & partnerships
- Commercial decisions

A consulting-led delivery partnership aligned to business outcomes.

Anodiam delivers

- Solution architecture
- Software engineering
- Cloud & DevOps
- Quality assurance
- Security & compliance support
- Delivery management & technical advisory

What CheckUpp receives

- Dedicated technology partner
- Senior-led technical delivery
- Faster path from idea to market
- Scalable, production-ready execution

How Anodiam is engaged

- Paid technology delivery
- Resource-based consulting model
- Sustainable support for the delivery team
- No operational role in CheckUpp's business

Commercial principle: Anodiam participates through technology consulting and billed delivery support, while CheckUpp retains business ownership and decision control.

CheckUpp

Anodiam

Use of $100K Investment Ask for CheckUpp
As previously discussed, the $100K investment ask is intended to fund the move toward a production-release-ready pilot, including:

- **AUD $35K** Technology development & QA
- **AUD $10K** Privacy & cyber security
- **AUD $12K** Cloud, hosting & integrations

CheckUpp stays focused on business outcomes. Anodiam provides the delivery capability to move quickly and confidently.

CheckUpp | Anodiam

What CheckUpp Needs to Commit

Clear ownership and timely decisions are essential to start fast and deliver well.

Product Owner

- Named & empowered
- Prioritises requirements
- Available weekly

Dr Sheila or appointed delegate

Pilot Users

- Representative users identified
- Available for feedback
- Real-world input

Business Decisions

- Sales
- Marketing
- Expansion
- Remain with CheckUpp

Approvals & Governance

- Timely decisions
- Clinical / privacy input
- Avoid delivery delay

4-week sprint → **Demo** → **Feedback in 1–2 weeks** → **Next priorities**

CheckUpp owns the product direction, business decisions and stakeholder feedback.

CheckUpp | Anodiam

How We Start

Clear responsibilities. Disciplined delivery. Fast mobilisation.

Shippable Increments

- Agreed product delta
- Usable every cycle

Secure by Design

- Cloud, DevSecOps, privacy
- Robust & cost-effective

Transparent Advice

- Options and trade-offs
- Escalate decisions early

Delivery Discipline

- Plan, demo, improve
- Visibility throughout

Anodiam delivers the technology. **CheckUpp makes the final product and business decisions.**

1. **Appoint** — Product Owner
2. **Identify** — Pilot users
3. **Align** — Goals & success
4. **Define** — Backlog & priorities
5. **Prepare** — Cloud, security, ways of working
6. **Start** — Sprint 1

4-week sprint → **Demo** → **Feedback** → **Next sprint**

Fast start. Clear decisions. Predictable delivery.

CheckUpp owns direction. Anodiam drives execution.
